War Shares Make Substantial Gain

NEW YORK, Oct. 7.-Yesterday's tur-bulent reaction in prices was largely retrieved in today's early dealings. The ease with which substantial recoveries were made suggested that the market had been oversold in the preceding session as a result of the cautionary attitude taken by the Stock exchange au

thorities. Many of the more speculative war shares showed gains of from 1 to 3 points at the outset and a more substantlal foundation for general improvement was seen in the further advance of representative railways.

PARIS, Oct. 7 .- A new kind of gas, apparently, is being used by the Germans the fighting in the Champagne. Details regarding its effects were given by Dr. Lucien Dumont by sufferers he was called to attend in Paris hospitals. According to the written statements of three men who fought, respectively, at Zouain, Zuippes and Moranvillers, they were surrounded for a few seconds by louds of deep green gas of a rather pleasant odor. These men asserted that oldiers, who were no masks, soon were suffocated, while those with masks lost onsciousness for varying periods.
